PROJECTS

An app where all the departments faculty data stored

BRACU FACULTY INFO

October 2020 BRAC University

BRACU Faculty Info, is an app which is made to help the students of BRAC University. Often found that students try to seek faculty email address or the name of the faculty. Because, in our class routine and in other places it shows only the fauculty initials.

- Collected all the data of the faculty members by taking help from my friends of other departments and faculties as well.
- App provides both dark and light theme.
- Language used: Dart
  Framework: Flutter
- See the project

ROBUST

ROBU Podcast Website

November 2020 Robotics Club OF BRAC University

ROBUST is a Podcast website where you can hear audio shows and download audio in personal device.

- It was a group project where I work in making audio player part
- Visit the website
